- **Seminars** – Organizer, facilitator, and presenter at multiple roundtables and conferences, including FIP Judging Traditional Philately (serving as designated official translator to Spanish)
- Bilingual, Spanish and English, proficient level in Portuguese.

My 18 years of direct hands-on experience on the board of America's Federation allowed me to understand the dynamics of philatelic activities at all levels. I applied this knowledge over the years by executing the vision and strategies set by the board of directors, creating and influencing multi-level representation and succession amongst the Americas' Federations.

I am a recognized member of the philatelic community worldwide who served the hobby in multiple capacities, representing my country, Latin American philatelic organizations, and the American continent at the FIP level, including co-authoring FIAF Bylaws and Regulations as editor of their journal, liaison with national federations, supporting local and international activities.

I bring the energy, enthusiasm, partnership, and consensus required to continue expanding and integrating across the continental federations, mainly supporting those emerging philatelic communities, the long-reach vision, and activities FIP provides to all its members.
